## 17% INCREASE IN THE AMOUNT OF MILK DELIVERED IN THE FIRST HALF OF 2024

 In the first semester of 2024, DN AGRAR recorded a **17%** increase in the quantity of milk delivered compared to the first half of 2023.

 We continued the upward trend and delivered **over 5 million liters of milk** in June as well, despite the heat wave and the higher number of pregnant cows. Most of these will give birth in the next 6-8 weeks.

 In June we recorded an **11% advance in the amount of milk delivered** compared to the same period last year.

## Project Updates:

### Robots in the milking parlors of Cut and Lacto Agrar farms

To increase efficiency on DN AGRAR farms, we have installed 2 types of robots for the milking process, as follows:

- The first type of robot is an udder sprayer used after the milking process is completed.
- The second type of robot is used for pre-cleaning and lactation stimulation before the milking process begins.

The presentation of the robots can be watched in the video below! 🖱️

🐄 We initiated this project in 2023 with the installation of udder sprayers in these two DN AGRAR farms. These sprayers are used after the milking process to automatically spray the udders with a special solution (post-dip), which covers and protects the udder from bacteria that can cause mastitis between milking cycles.

🐄 In the first quarter of 2024, we continued the project and by the end of May 2024, we installed the pre-cleaning and lactation stimulation robots in both DN AGRAR farms. The primary objective of using these robots is to minimize clinical mastitis and associated costs.

🐄 Based on our internal analysis, once these robots are fully operational, a milestone achieved in June, we anticipate a 50% reduction in manual labor involved in the milking process at DN AGRAR's Cut and Lacto Agrar farms.

- June 27th, 2024 Peter de Boer, BoD Member & IR Manager, was awarded in the 19th edition of the "Young Managers 2024 - Rising Stars: How Leaders from Generations X and Y Are Changing Romanian Business?" Gala.
- June 27th, 2024 DN AGRAR joined the Romanian Investor Relations Association (ARIR) as an Associate Member.
