### **Important events that need to be reported: DN AGRAR GROUP announces the completion of the modernization works at the Apold Farm and the purchase of 400 cows**

DN AGRAR GROUP S.A. (DN) informs the shareholders and investors about the completion of the modernization works of the milking parlors at the Apold Farm. The investment consisted in the construction of a new milking parlor, at international standards, which was completed in June and was financed through a bank loan, as well as the renovation of the current milking parlor, whose renovation value amounted to 100,000 euros and was fully financed through own sources, including construction and operation.

Operating the two halls at maximum capacity, in 3 shifts, would allow an increase in operational capacity by 50% for the Apold Farm, from 1,000 cows. At the same time, 400 milking cows were purchased for the same farm, which will cover up to 40% of the new capacity.

**Jan Gijsbertus DE BOER, Chairman of the Board of Directors of DN AGRAR GROUP SA:**

"The investments in the milking parlors made at the Apold Farm contribute to the group's objective to increase milk production, after in the first half of the year we invested in new animal shelters, the increase of the livestock, as well as an additional feed storage hall. In line with the announced strategy, we have invested in the purchase of 400 Holstein cows from Germany, for the Apold Farm, the rest of the herd being completed with young cattle raised on our farms."

The two milking parlors are of the "Swing over" type and have integrated 60 milking stations, each, together they have a milking capacity of 480 cows/hour, totaling a current production of 45,000 liters of milk daily.

**Jan Gijsbertus DE BOER**

Chairman of the Board of Directors
